

ANNUAL INDEX, Vol. 10

A		D		K	
Agarwall, J. C., R. E. Miller & L. J. Petrovic, Coal as clean fuel—a challenge, November	44	Deurbrock, A. W., A. F. Baker & K. J. Miller — Two-stage flotation selectively floats pyrite from coal, August	44	Kanawha Coal Co., Madison Mine, Ashford, W. Va., August	30
Alexander, Roy — Confrontation: Coal and public opinion, April	52	Diesel-powered load/haul/dump, The, December	52	L	
Ames Coal Co., Sun Spot Mine, Fulton County, Ill., March	32	E		Labounsky, Alex — DIP — a new tool for evaluating coal deposits, August	47
Ames Coal Co., Wabash Mine, Wabash County, Keensburg, Ill., March	40	Effect of flocculation on moisture reduction of fine coal, October	56	Levene, Harold — First commercial coal-to-pipeline-gas plant is proposed, March	36
American Mining Congress — Record crowd at coal convention, July	56	El Paso Natural Gas Co., Burnham Coal Gasification Complex, San Juan County, N.M., March	36	— Western meeting sets new attendance record, September	52
— 73 AMC Coal Convention, The, April	36	Electronic monitoring of mines now a reality, April	65	Lindsay, George C. — Remote control mining comes of age, September	30
Amherst Coal Co., McGregor Plant, Slagle, Logan County, W. Va., July	50	Energy and money-changers (Comment), November	14	Load factor: its effects on ac power systems, June	42
September	42	Exhibition in print — An assembly of "outstanding" equipment, supplies and services—chosen by the manufacturers from recent offerings to the coal mining industry, April	40	Lunar Rover sensors direct mine fire fighter, December	61
Auxiliary equipment needed for sampling system, June	48	F		Lusk, Ben & J. Wes Blakely — Tough strip law could repress industry & nation, July	44
B		Federale Mynbou, Usutu Colliery, Ermelo, Eastern Transvaal, South Africa, October	62	M	
Bagge, Carl E. — 1973 A crucial year for coal, January	33	Finally (Comment)	10	Mackin, Dr. Nelson A. — Understanding the problem of noise underground, August	34
Baker, A. F., K. J. Miller & A. W. Deurbrock — Two-stage flotation selectively floats pyrite from coal, August	44	First Annual Mined Land Symposium attracts throng, May	40	Maddock, Kenneth J. — Preventive maintenance makes a difference, June	34
Battery-powered load/haul/dump, The, December	42	First commercial coal-to-pipeline-gas plant is proposed, March	36	Madison mining complex has many new features, August	30
Bituminous Coal Research, Inc., Monroeville, Pa., January	35	Forecast — Year ahead 1973, The, January	31	Martin, C. H. — Shortwall mining with power supports, Part 2, March	46
Blakely, J. Wes — First annual Mined Land Symposium attracts throng, May	40	G		Mason, Richard H. — Electronic monitoring of mines now a reality, April	65
— Grafton's 'Haulback' strip method has many advantages, July	46	Garvey, James R. — Coal's goals in research, January	35	— Hawley successful in adapting system to recover ultra-fines, May	35
Blakely, J. Wes & Ben Lusk — Tough strip law could repress industry & nation, July	44	Grafton Coal Co., Barbour County, Clarksburg, W. Va., July	46	— W. Va. producers make strong, sensible plea to relax APC, June	37
Blakely, J. Wes & Richard H. Mason — City of 20,000 is possible on former strip mine site, A, September	47	Grafton's 'Haulback' strip method has many advantages, July	46	Mason, Richard H. & J. Wes Blakely — City of 20,000 is possible on former strip mine site, A, September	47
Broken Hill Proprietary Co., Ltd., The Corral and Lambton Collieries, N.S.W., Australia, March	46	Ground monitoring, remote control highlight ME-MMA, July	43	McGregor goes metallurgical, September	42
C		H		McGregor Plant gets new combination circuit, July	50
Cannelton Industries, Inc., Cannelton, W. Va., September	47	Hallmark & Reid Coal Co., Jefferson County, Ala., June	45	Miller, Charles V. — How to extend battery life, December	50
Chamberlain, Dr. E. A. C. — NCB adopts effective new monitor system in 30 mines; 10 more set, August	40	Hargraves, A. J. — Shortwall mining with power supports, Part 2, March	46	Miller, K. J., A. F. Baker & A. W. Deurbrock — Two-stage flotation selectively floats pyrite from coal, August	44
City of 20,000 is possible on former strip mine site, A, September	47	Hawley Coal Mining Co., Keystone, W. Va., May	35	Miller, R. E., J. C. Agarwall & L. J. Petrovic, Coal as clean fuel—a challenge, November	44
Coal and public opinion (Comment), April	17	Hawley successful in adapting system to recover ultra-fines, May	35	Mining Electro-Mechanical Maintenance Association — Ground monitoring, remote control highlight ME-MMA, July	43
Coal as clean fuel—a challenge, J. C. Agarwall, R. E. Miller & L. J. Petrovic, November	44	Holz, Peter — Sigma supplies 4½ million tons/year to coal-to-gas plant, November	36	— Effect of flocculation on moisture reduction of fine coal, October	56
Coal is No. 1, August	50	— South Africa team completes tricky engineering task, October	62	N	
Coal mine health & safety research, February	32	How to extend battery life, I, December	50	National Coal Association — Coal is No. 1, August	50
Coal Mining Institute of America — Coal Mining Institute's 86th annual meeting, March	54	How to select the proper loader, February	41	— First annual Mined Land Symposium attracts throng, May	40
Coal Mining Institute's 86th annual meeting, March	54	Huge Valley Camp complex produces two million tpy, November	28	National Safety Congress meets in Chicago, January	40
Coal's goals in research, January	35	Huntington, Fred R. — Auxiliary equipment needed for sampling system, June	48	National Safety Council — National Safety Congress meets in Chicago, January	40
Collett, Hugh — Lunar Rover sensors direct mine fire fighter, December	61	— Sample chutes: design and construction, February	35	NCB adopts effective new monitor system in 30 mines; 10 more set, August	40
— Renkol classifier may be missing link in coal preparation, June	30	I		New ball game, A (Comment), March	16
Confrontation: coal and public opinion, April	52	Illinois miners gather for the 80th time, January	38	New challenge, A? (Comment), October	28
Consolidation Coal Co., Glenharold Mine, Stanton, N. D., August	43	Illinois Mining Institute — Illinois miners gather for the 80th time, January	38	New developments in face machinery design, May	29
Cornforth, Carol L. — Reclamation commitment proves rewarding, March	32	J		Nickerson, Floyd H. — Huge Valley Camp complex produces two million tpy, November	28
— Reclamation proves successful in semi-arid Montana, July	40	Jones, George & Ed Skolnik — McGregor goes metallurgical, September	42	— Madison mining complex has many new features, August	30
— Unprecedented Black Lung law, The, December	57				
— Western Energy strips the 25-ft Rosebud in southeastern Montana, July	36				
Cravat Coal Co., Cravat Mine, Cadiz, Harrison County, Ohio, February	28				

- Stripping with a variety of equipment, February	28
- Valley Camp puts first 4-headed auger to work, May	43
1973 - A crucial year for coal, January	33
North Dakota mine improves benching with crawler tractor, August	43

O-P

Peabody Coal Co., Black Mesa Mine, Kayenta (northeastern), Ariz., May	45
Peabody Coal Co., Universal Mine, Terre Haute, Ind., November	40
Peabody Coal's mining plans stimulate archaeological diggings, May	45
Peabody's Universal Mine: a "showplace," November	40
Petrovic, L. J., R. E. Miller & J. C. Agarwall, Coal as clean fuel - a challenge, November	44
Philips, John N., - 1973 - A crucial year for coal, January	33
Plan, William T., - Revegetating surface mined land, July	54
Preparation	
- Auxiliary equipment needed for sampling system, June	48
- Effect of flocculation on moisture reduction of fine coal, October	56
- Hawley successful in adapting system to recover ultra-fines, May	35
- McGregor goes metallurgical, September	42
- McGregor Plant gets new combination circuit, July	50
- Renkol classifier may be missing link in coal preparation, June	30
- Sample chutes: design and construction, February	35
- Screening surface: which is the right one, The, October	46
- Screens, October	49
- Two-stage flotation selectively floats pyrite from coal, August	44
President looks at energy, The (Comment), January	10
Preventive maintenance makes a difference, June	34
Pruess, E. D., - How to select the proper loader, February	41

R

Recalling old friends (Comment), September	5
Recco Coals, Inc., McDowell County, Bartley, W. Va., June	30
Reclamation commitment proves rewarding, March	32
Reclamation proves successful in semi-arid Montana, July	40
Record crowd at coal convention, July	56
Remote control mining comes of age, September	30
Renkol classifier may be missing link in coal preparation, June	30
Revegetating surface mined land, July	54
Ritter, Willard F., - What you can learn from your lubricants, October	52
Rocky Mountain Coal Mining Institute - Western meeting sets new attendance record, September	52
Rotary drills handle prospecting too, June	45

S

Saga on underground fire protection, February	24
---	----

Sample chutes: design and construction, February	35
Screening surface: which is the right one, The, October	46
Screens, October	40
Selecting the right fire-resistant hydraulic fluid, November	42
'73 AMC Coal Convention, The, April	36
Shortwall mining with power supports, Part 2, March	46
Sigma Colliery, Sasolburg, Northern Orange Free State, Republic of South Africa, November	36
Sigma supplies 4½ million tons/year to coal-to-gas plant, November	36
Sinha, A. K., - Load factor: its effects on ac power systems, June	42
Skolnik, Ed & George Jones - McGregor goes metallurgical, September	42
Slope driving with a mechanical mole, March	40
South Africa team completes tricky engineering task, October	62
Stripping with a variety of equipment, February	28
Surface mining	
- City of 20,000 is possible on former strip mine site, A, September	47
- First commercial coal-to-pipeline-gas plant is proposed, March	36
- Grafton's 'Haulback' strip method has many advantages, July	46
- How to select the proper loader, February	41
- Huge Valley Camp complex produces two million tpy, November	28
- North Dakota mine improves benching with crawler tractor, August	43
- Peabody's Universal Mine: a "showplace", November	40
- Reclamation commitment proves rewarding, March	32
- Reclamation proves successful in semi-arid Montana, July	40
- Revegetating surface mined land, July	54
- Rotary drills handle prospecting too, June	45
- Stripping with a variety of equipment, February	28
- Surface mining coal via longwall method, October	60
- Utah International operates second New Mexico mine, December	63
- Valley Camp puts first 4-headed auger to work, May	43
- Valley Camp standardizes mining all seams, November	32
- Western energy strips the 25-ft Rosebud in southeastern Montana, July	36
- What you can learn from your lubricants, October	52
Surface mining coal via longwall method, October	60

U

Underground mining	
- Battery-powered load/haul/dump, The, December	42
- Diesel-powered load/haul/dump, The, December	52
- Electronic monitoring of mines now a reality, April	65
- How to extend battery life, December	50
- Huge Valley Camp complex produces two million tpy, November	28
- Load factor: its effects on ac power systems, June	42
- Lunar Rover sensors direct mine fire fighter, December	61
- Madison mining complex has many new features, August	30

- NCB adopts effective new monitor system in 30 mines; 10 more set, August	40
- New development in face machinery design, May	29
- Preventive maintenance makes a difference, June	34
- Remote control mining comes of age, September	30
- Saga on underground fire protection, February	24
- Selecting the right fire-resistant hydraulic fluid, November	42
- Shortwall mining with power supports, Part 2, March	46
- Sigma supplies 4½ million tons/year to coal-to-gas plant, November	36
- Slope driving with a mechanical mole, March	40
- Understanding the problem of noise underground, August	34
- Unprecedented Black Lung law, The, December	57
- Valley Camp standardizes mining all seams, November	32
Understanding the problem of noise underground, August	34
Unprecedented Black Lung law, The, December	57
Utah International, Inc., San Juan Mine, near Farmington, N.M., December	63
Utah International operates second New Mexico mine, December	63

V

Valley Camp Coal Co., Southern Div., Shrewsbury, Kanawha County, W. Va., November	28, 32
Valley Camp Coal Co., No. 10 Mine, Witches Creek, Kanawha Co., W. Va., May	43
Valley Camp puts first 4-headed auger to work, May	43
Valley Camp standardizes mining all seams, November	32

W

Walls, Dudley - McGregor Plant gets new combination circuit, July	50
Warner, E.M., - New developments in face machinery design, May	29
Washington speaks out on coal, January	25
West Virginia producers make strong, sensible plea to relax APC, June	37
West Virginia Surface Mining & Reclamation Association - Surface mining coal via longwall method, October	60
Western Energy Co., Butte, Mont., July	36, 40
Western Energy strips the 25-ft Rosebud in southeastern Montana, July	36
Western meeting sets new attendance record, September	52
What you can learn from your lubricants, October	52
Willis, Rodney H., - Selecting the right fire-resistant hydraulic fluid, November	42

X-Y-Z

Yanick, Dr. Joseph J., - Coal mine health & safety research, February	32
Year ahead 1973, The, January	31
